

## Russia Life Sciences Practice

---

### Industry Leaders with Vast Experience

King & Spalding is one of the most active law firms in the global life sciences industry with more than 300 lawyers in the U.S. and Europe, focused in the life sciences industry. In Russia and the CIS, our active life sciences practice works with both global businesses as well as Russian companies. The firm currently represents more than 200 pharmaceutical, biotechnology, and medical device manufacturers overall, including 8 of the top 10 pharmaceutical/biotechnology manufacturers and 8 of the top 10 medical device manufacturers.

We offer pharmaceutical, biotechnology and medical technology companies specialized experience at every stage of the product life cycle—from emerging growth company counseling on intellectual property and clinical trials, through licensing and finance, to governmental approval, manufacturing, marketing, commercial and post-approval regulatory, transactional, and litigation matters. From start-up through product launch to patent expiry, our clients rely on King & Spalding’s substantive expertise, bench strength and collaborative approach to client service.

### Russia Practice and Moscow Office

King & Spalding has continued to expand its global presence with the opening of an office in Moscow, Russia. We have four partners, all with extensive experience working in Russia and the CIS, on the ground in Moscow and working together with our London office providing Russian, English and U.S. law capabilities.

King & Spalding has a long history of representing clients doing business in Russia and the other CIS countries across a number of industries, including with respect to pharmaceuticals, biotechnology and medical devices. Our Russia and CIS practice is led out of our Moscow and London offices, working together with lawyers in King & Spalding’s offices around the globe, and integrates an understanding of international deal making, politics and cultures with sophisticated legal skills that enables us to serve our clients efficiently and effectively.

We represent Russian and international clients on transactions and disputes relating to investments in Russia and the other CIS countries, as well as Russian investors on transactions and disputes around the world. Our Moscow office serves our clients across a full range of legal services, including mergers & acquisitions, private equity, real estate, construction, life sciences, finance, international arbitration, intellectual property, international trade, antitrust, privacy and information security, government investigations and anti-corruption.

Our multi-disciplinary Russia and CIS practice comprises a well established team of lawyers—many of them ranked in *Chambers Global* and *Chambers Europe*—representing decades of experience practicing in Russia serving some of the largest corporations.
