

# King & Spalding Alternative Capital and Credit Fund Practice

“King & Spalding is a world-class firm with massive global capabilities, as well as a culture of local expertise, which makes it seem a lot more intimate.”

—*Chambers USA*

## Deep Experience Representing Private and Public Credit Funds

### Scale

King & Spalding’s global finance practice brings together more than 100 finance lawyers located in offices across the United States, Europe, Asia and the Middle East to represent lenders, investors and funds in the full range of secured and unsecured financings. Over the past three years, we closed approximately 600 finance transactions for our clients, amounting to \$165 billion in aggregate financing.

### Range of Disciplines

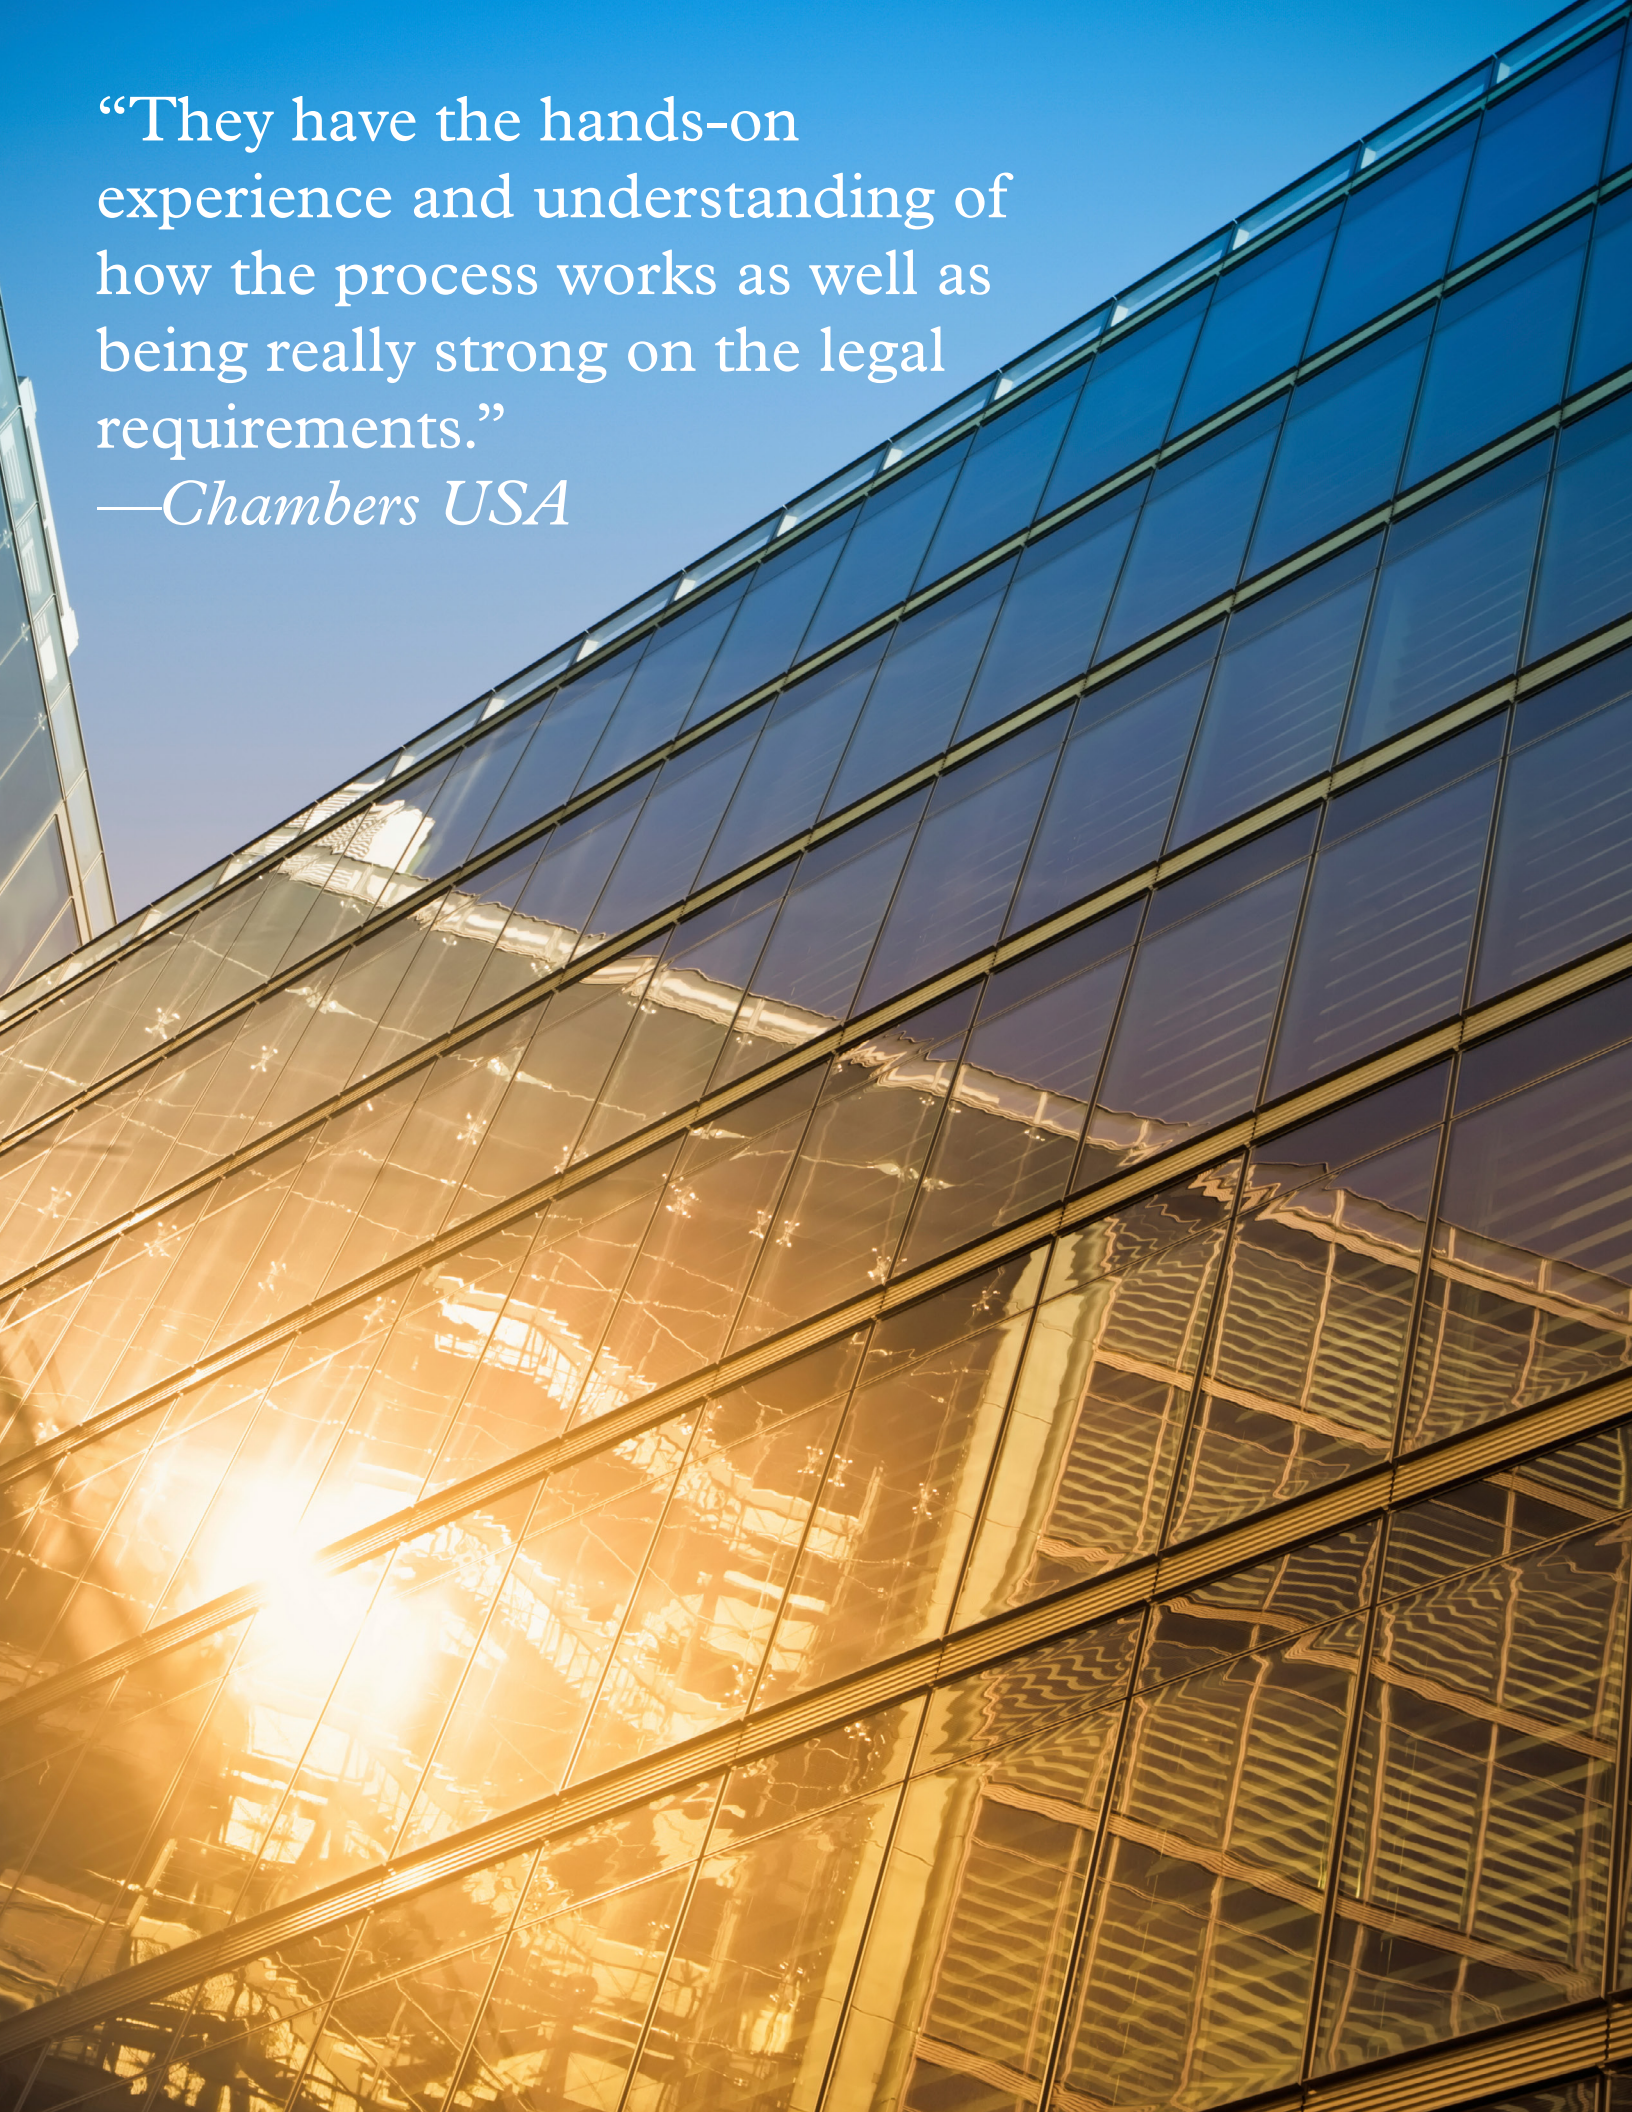

Our team has years of experience representing credit funds and other sources of alternative capital in a variety of transactions, including:

- traditional direct lending opportunities (first lien secured loans, including unitranche loans);
- junior capital transactions (whether in the form of second lien loans or notes, mezzanine loans or notes, private high yield placements, holdco pik loans or notes and/or preferred equity investments);
- credit opportunity or ‘special situation’ financings
- balance sheet refinancings and/or providing capital solutions to ‘stressed’ credits;
- and restructuring of capital structures.

### Solution Oriented

We don’t “issue spot” – we seek creative solutions and deal certainty. We take a lender focused approach to fight for what matters, but we don’t over-lawyer the deal. Our method provides certainty of closing and a user friendly approach that sponsors appreciate.

“They have the hands-on experience and understanding of how the process works as well as being really strong on the legal requirements.”
