E-DISCOVERY LANDSCAPE

A single lawsuit or government investigation can lead to millions in e-discovery costs. Based on our experience handling viral, crisis matters, we advise clients on what steps they should take before they are hit with a major piece of litigation or subpoena to significantly reduce their future preservation, collection, review and vendor costs. And even if a corporation has not yet had the opportunity to take these steps, our core business is identifying and implementing innovative technology and project management solutions in high stakes litigation or crisis matters to (1) control skyrocketing e-discovery costs; (2) take a mountain of electronically stored information and organize and isolate the most relevant documents; and (3) deliver excellent legal services. The cost savings and results we have achieved are legendary and the simple reason our clients remain our clients.

HOW WE CAN HELP

- Develop litigation readiness plans
- Update email, IM, mobile device and social medial policies
- Update retention policies
- Advise on defensible deletion of email, IM and orphaned ESI
- Advise on Office 365 issues
- Gap analysis on ESI issues
- Advise on purchase/migration of legal hold, email and ECA technology
- Manage legal hold technology
- Train IT on preservation or collection process
- Custodian witness training
- Counsel on global-e-discovery issues
- Negotiate e-discovery vendor contracts; review invoices
- Develop processes for third-party discovery requests
- Manage legal hold process
- Identify and preserve responsive ESI
- Attend Rule 26(f)s and meet-and-confers
- Conduct collection interviews
- Collect ESI and hard copy documents
- Perform collection oversight and tracking
- Develop and implement search term, sampling or TAR protocols
- Run search terms, TAR, sampling or ECA
- Review documents
- Produce documents
