

Alternative Capital and Credit Funds

Our Alternative Capital and Credit Funds group primarily consists of finance and restructuring attorneys who represent credit funds, other non-bank lenders, and groups thereof with a focus on loans and other extensions of credit across the capital structure in connection with: (i) the issuance of such credits, including ‘new money’ primary issuances, acquisition financing, and stressed / special situations; and (ii) providing comprehensive solutions and practical guidance to our clients when such credits become the subject of in and/or out of court complex business restructurings.
