

# Environmental, Social and Governance (ESG)

As ESG principles dominate discussions among businesses, shareholders, investors, regulators, and the public worldwide, King & Spalding is positioned to partner with our clients in every aspect of an ESGfocused future. Our team brings cross-disciplinary skills into this expanding sector, integrating regulatory, government advocacy, litigation, transactional, crossborder and human capital experience to identify ESG risks and opportunities. We partner with our clients to develop holistic new-horizon solutions.

Our ESG capabilities include:

- Advocacy
- Climate change
- Crisis management/risk mitigation
- Digital citizenship
- Diversity & Inclusion
- Due diligence
- Energy transition
- Environmental justice
- Ethics and compliance
- Governance and engagement
- Labor and employment and human capital
- Litigation and investigations
- Regulatory counseling
- Reporting and disclosures
- Supply chain management
- Sustainable finance
- Third party rating frameworks and ESG scores
- Transaction support
- Wages and benefits
- Workplace safety
