

Healthcare

King & Spalding's healthcare industry practice has grown to encompass more than 400 professionals who serve the entire spectrum of healthcare providers, practitioners, investors, manufacturers, suppliers, vendors, educators, researchers, and inventors.

Our growth as a professional firm to the healthcare industry is attributable to our track record in achieving outcomes our clients value. We become partners with our clients in developing and executing complex transactions, litigation strategies, government reimbursement solutions, regulatory compliance initiatives, managed care contracting strategies, and efficiency/cost reduction measures. We understand our clients' business operations and shape our advice and counsel to the achievement of our clients' strategic objectives. Our clients tell us that we excel not only in efficiently delivering uncompromising quality, but also in making our clients' problems our own.

We participate directly in the industry ourselves, serving as trusted advisors, commentators on business trends, and advocates for the advancement of healthcare policy. Over the years we have been fortunate to have some of the best and brightest talents in our field join us in this work.
