

# Life Sciences and Healthcare

Our team guides life sciences and healthcare companies through the complex compliance obligations, transactions and litigation that enable them to advance the breakthrough treatments and services that improve patient health. We combine extensive life sciences industry capabilities and our long history as a leading healthcare industry adviser to counsel clients across the delivery system on FDA law, health law, product liability, M&A, appellate litigation, data privacy and security, government advocacy and more.

**An established leader in life sciences and healthcare.** We have a long history as the firm of choice for pharmaceutical, biologics and medical device manufacturers and major hospitals and health systems. The *Chambers* and *Legal 500* guides consistently rank our practice and its lawyers among the best in the life sciences and healthcare field.

**At the forefront of industry innovation.** We assist development-stage clients operating in emerging areas where technology intersects with medical care, including precision medicine, artificial intelligence, and innovations in digital health.

**Bringing the right resources to the table.** We anticipate shifting market trends and grow and evolve our team to help our clients respond to them. Most recently, we have expanded our capabilities in food and beverage litigation, biologics counseling, global human global human capital and compliance, and government contracts, among other areas.
