

Technology

Our technology industry team operates at the intersection of technological innovation and the law. Our multi-disciplinary team helps technology companies, and other businesses that use technology, to accomplish their objectives efficiently, effectively and creatively. The group includes lawyers from across the firm who are leaders in providing commercially-minded technology transactions, litigation, corporate, M&A, finance, intellectual property, regulatory, outsourcing and government relations advice across a wide range of technology deals, cases and matters.

Located in the most vibrant technology and financial centers in the world, our global team serves established and emerging technology clients across many industries, including life sciences and healthcare, B2B, B2C and B2G e-commerce, semiconductors, energy, internet infrastructure, telecommunications, financial services, insurance, media and entertainment, real estate, government services, aerospace and defense.

We are at the forefront of advising on emerging and fast-growing new fields of technology, including cloud, cybersecurity, autonomous and connected vehicles, personalized medicine, artificial intelligence, machine learning, cloud infrastructure and blockchain. Our team includes lawyers with substantial real-world experience in industry, and many have advanced degrees in science and engineering. Together, they provide unmatched capability to handle the toughest and most sophisticated challenges.
