

Toxic & Environmental Torts

King & Spalding lawyers have successfully litigated, tried, and resolved toxic tort and environmental cases in state and federal courts throughout the United States, including in the most plaintiff-friendly jurisdictions. We have handled vast and overlapping discovery obligations, navigated thorny legal theories, defeated class certification, tackled complex technical and scientific issues, and managed difficult facts.

We provide comprehensive resolution options for clients facing complex cases asserting myriad claims due to alleged contamination or toxic exposures. Our lawyers are at the forefront of many of the high-exposure and high-profile environmental cases in the country including cases related to alleged exposure to naturally occurring substances and solvents such as:

- Trichloroethylene (TCE)
- Perchloroethylene (PCE)
- Trichloroacetic acid (TCA)
- Paraquat
- Ethylene Oxide
- Per- and Polyfluoroalkyl Substances (PFAS)
- Asbestos
- Talc
- MTBE
- Other claimed toxins

We understand our clients' business objectives, assess their challenges, identify litigation and resolution options, and develop and implement strategies to resolve individual cases or litigation dockets – whether through trial, arbitration, mediation, or settlement. We partner with our clients to address litigation in a cost-effective manner that meets our clients' strategic goals.

We are nationally recognized by leading industry publications such as *Legal 500*, where we are ranked in Tier 1 for toxic tort work, and *Chambers & Partners* where we

Class Action – Defense:
Toxic Tort,
Automotive/Transport and

are ranked as an “Elite” firm for product liability and mass torts work; and our team has achieved favorable outcomes for clients in a wide range of industries.

Experience. Our lawyers handle individual, class and mass joinder cases brought by all types of plaintiffs, from property owners to water districts to consumers. We are well-versed on the claims in these cases, including personal injury, fear, increased risk of disease, medical monitoring, property damage, and business losses.

Technical Understanding. We have strong technical backgrounds. Our understanding of the scientific, medical, and technical issues in toxic tort and environmental cases is built on decades of practice, having presented and cross-examined hundreds of experts in diverse scientific disciplines. Our lawyers can translate complex environmental and scientific issues into language that judges and juries can understand.

Relationships. We have a network of local counsel, including trial-tested veterans in the most difficult, plaintiff-friendly jurisdictions in the country, and we are supported by experienced appellate counsel.

Trial. We have a deep bench of first-chair trial lawyers. We try high-exposure cases and win.

Class Actions. We have achieved success in every facet of class action litigation, defeating class certification in virtually every state and against every conceivable theory of recovery.
