Brandon Dalling is a partner in King & Spalding's Finance practice resident in the New York office. Brandon is active in King & Spalding's leveraged finance, project finance, acquisition finance, private equity and energy and natural resources practices.

Brandon represents financial institutions, private equity and strategic sponsors, developers and commodity hedge counterparties in leveraged finance, project finance, acquisition finance, other secured and unsecured lending transactions, mergers and acquisitions, physical and financial structured commodity hedging and supply transactions and energy management arrangements, with a focus on alternative energy (including solar, wind, hydro, landfill gas-to-energy and biomass) and conventional power generation, LNG-to-power generation, oil & gas and other natural resources.

Brandon holds a Juris Doctor from Brigham Young University - J. Reuben Clark Law School where he graduated *magna cum laude* in 2002 and served on the managing board of the *BYU Law Review*.

King & Spalding brings together more than 100 finance lawyers located in offices across the United States, Europe, Asia and the Middle East to represent lenders, investors, funds and borrowers in the full range of secured and unsecured financings. Over the past three years, we closed approximately 600 finance transactions for our clients, amounting to \$165 billion in aggregate financing.

Matters

A major power-focused private equity sponsor in connection with over US \$6.8 billion of financings, acquisitions and divestitures of gas-fired and hydropower generation facilities, including structuring and negotiating medium- to long-term structured commodity hedging arrangements and credit sleeves.

Sojitz Corporation in connection with its acquisition of 33% of the ownership interests in the 485 MW Birdsboro construction-stage gas-fired combined-cycle generation facility near Philadelphia, PA from Ares EIF.

A major project developer in connection with over US \$4.5 billion of project construction financings for the **Fairview**, **Shore**, **St. Charles**, **Towantic** and **Valley** gas-fired generation facilities, including negotiating over 3.0 gigawatts of medium- to long-term structured hedging arrangements and gas supply and energy management arrangements.

Major U.S. banks in connection with over 1.0 gigawatts of long-term structured commodity hedges to development and early-stage construction wind projects.

A major commodities trading company in connection with the sale of the 500 megawatt Danskammer generating facility in New York.
